### MiShak at Mission Beach new Film Festival Gold Sponsor

MiCorp Property, developers of eco friendly MiShak homes in Mission Beach Far North Queensland, is excited to be a Gold Sponsor of the 2010 Mission Beach Film Festival.

The Film Festival's Sustainable Short Film awards will be presented by MiShak.

Film makers still have the opportunity to submit their works with conditions and entry forms available from the festival website.

MiCorp Property Director Mr James Mort said: "We are delighted to support the Mission Beach Film Festival through sponsorship. We think the festival's sustainability theme is very relevant given Mission Beach's proximity to the Great Barrier Reef and world heritage rain forests."

MiShak homes are tropical houses surrounded by beauty in a beachfront location. The MiShak project is a unique opportunity for holiday makers, retirees and investors to purchase an affordable home adjacent to Mission Beach's golden sand and spectacular island views.

The Mission Beach Film Festival will be held from September 17 to 19. The festival will screen 18 films over three cinemas, host a series of guest speaker panels and offer a range of activities for children.
